LOCAL SPIRITS

The Lakes Distillery, Keswick

"We have put a lot of thought into the production process at our distillery to ensure we produce spirits of outstanding quality. The plant has been carefully designed to the highest specification, with a mixture of traditional methods and new innovations. Our stills are made to unique designs, on a small artisan scale - no mass production for us!" Lakes Distillery is a hugely popular choice amongst our guests, with a range of different spirits: 'The Lakes Gin' "A Cumbrian Gin, made with local botanicals & distilled in our Artisan Still.", 'The Lakes Vodka', "The first ever Vodka to be produced in Cumbria", and 'The One' Blended Whisky, which takes elements from all over the British Isles.

VODKA

Unquestionably a supremely popular spirit, Vodka is enjoyed around the globe thanks to its incredible versatility and, surprisingly, even its variation of flavour. Whilst typically enjoyed in the West as a means of adding spirit to mixed drinks, thanks to the superb quality and attention-to-detail found in craft Vodkas produced around the world, flavoursome premium Vodka is really burgeoning on the drinks scene.

COGNAC & ARMAGNAC

For the past three centuries, Cognac has been almost universally recognised as the finest of all the spirits that are distilled from grapes. It has many incomparable qualities: fruitiness, subtlety of bouquet, intensity, warmth and, above all, the complexity of the many thousands of styles and flavours from a (predominantly) single grape variety.

TEQUILA

"Beyond shots, slammers and hangovers, Tequila is a remarkable drink which can express the nuances of its raw material arguably better than any other spirit on the planet. The key to its unique flavour is the spiky distinctive blue agave plant, which gives Tequila its trademark flavour combination of fruit, pepper and spice. Premium Tequilas are split according to the extent of their maturation in cask among the following designations (in order from youngest to oldest): blanco (or plata/silver); reposado; añejo; extra añejo."

GIN

Synonymous with British culture, Gin is now enjoyed worldwide and is most commonly drunk in a Gin and Tonic or a Martini. In essence, gin is a spirit with a predominant flavour of juniper berries, which account for its tangy, crispness and refreshing attributes.

Simple Classics

Juniper (and sometimes a little citrus) are the only real distinguished flavours. These are often one-dimensional in terms of aroma and flavour.

WHISKEY

Scottish Single Malt

Malt whisky is the 'original' whisky of Scotland. Although other grains were used, barley was grown specifically for making beer and whisky. However, with the success of blended whisky in the late 19th century, little was drunk as single malt outside the Highlands until the 1980s, when 'the vintages of the North' were rediscovered by an enthusiastic public and began to be made available by distillery owners.

Speyside

Although geographically speaking still part of the highlands, Speyside is distinguished as a different region in whisky terms due to the similar style of the whiskys produced here, and the concentration of producers.
