LOCAL CHOICES

Here at The Merewood we are passionate about local products and produce. That's why we have sourced the best suppliers in the area for our drinks menu.

Local Ale

Hawkshead Brewery

"We started in an old barn at Hawkshead, at the head of Esthwaite Water. We outgrew it after four years and moved across Windermere to our present site, in the Mill Yard, beside the River Kent, at Staveley. We are certainly hands on and labour intensive. We have very little automation. The brewers do keep fit - lifting and shifting and digging out. Every day we handle, taste and smell our raw materials - malt and hops. Our beer is full of flavour, handmade, crafted, bold, personal and made by people who LOVE BEER for people who love beer."

The Merewood Bitter is made up of 'Hawkshead Bitter' which is "a pale and bitter ale: a slight elderflower aroma from Slovenian "Celeia" hops, followed by long bitterness"

Local Spirits

The Lakes Distillery, Keswick

“We have put a lot of thought into the production process at our distillery to ensure we produce spirits of outstanding quality. The plant has been carefully designed to the highest specification, with a mixture of traditional methods and new innovations. Our stills are made to unique designs, on a small artisan scale – no mass production for us!” Lakes Distillery is a hugely popular choice amongst our guests, with a range of different spirits: ‘The Lakes Gin’ ‘A Cumbrian Gin, made with local botanicals & distilled in our Artisan Still.’, ‘The Lakes Vodka’, “The first ever Vodka to be produced in Cumbria.”, and ‘The One’ Blended Whisky, which takes elements from all over the British Isles.

Langtons is a local story with what appears to be global appeal. The gin is a product of two Lakeland locals, using as many local products as possible. They have developed a truly distinct gin that is full of flavour but at the same time subtle on the palate.

COGNAC & ARMAGNAC

For the past three centuries, Cognac has been almost universally recognised as the finest of all the spirits that are distilled from grapes. It has many incomparable qualities: fruitiness, subtlety of bouquet, intensity, warmth and, above all, the complexity of the many thousands of styles and flavours from a (predominantly) single grape variety.

TEQUILA

"Beyond shots, slammers and hangovers, Tequila is a remarkable drink which can express the nuances of its raw material arguably better than any other spirit on the planet. The key to its unique flavour is the spiky distinctive blue agave plant, which gives Tequila its trademark flavour combination of fruit, pepper and spice. Premium Tequilas are split according to the extent of their maturation in cask among the following designations (in order from youngest to oldest): blanco (or plata/silver); reposado; añejo; extra añejo."

GIN

Synonymous with British culture, Gin is now enjoyed worldwide and is most commonly drunk in a Gin and Tonic or a Martini. In essence, gin is a spirit with a predominant flavour of juniper berries, which account for its tangy, crispness and refreshing attributes.

Simple Classics

Juniper (and sometimes a little citrus) are the only real distinguished flavours.

These are often one-dimensional in terms of aroma and flavour.

Mixing this with Fever Tree Lemon Tonic Water give it a citrus kick and make for a much more pleasurable sweet and sour drinking experience.

WHISKEY

Scottish Single Malt

Malt whisky is the 'original' whisky of Scotland. Although other grains were used, barley was grown specifically for making beer and whisky. However, with the success of blended whisky in the late 19th century, little was drunk as single malt outside the Highlands until the 1980s, when 'the vintages of the North' were rediscovered by an enthusiastic public and began to be made available by distillery owners.

Speyside

Although geographically speaking still part of the highlands, Speyside is distinguished as a different region in whisky terms due to the similar style of the whiskys produced here, and the concentration of producers.

NON ALCOHOLIC DRINKS

“The name chosen due to fever tree being the colloquial name for the cinchona tree in which quinine, a key ingredient for tonic, is found. The highest quality quinine is sourced from the Rwanda Congo border and blended with spring water and eight botanical flavours, including rare ingredients such as marigold extracts and a bitter orange from Tanzania. Crucially, no artificial sweeteners, preservatives or flavourings are added.”
