"The second we stepped inside Briery we knew it was where we were going to celebrate the most important day of our lives. The main thing that stood out then and still does now is every member of staff who works there. You are all so friendly and go out of your way to help and make guests feel at home. All my guests commented on how nice the hotel was, how amazing the food was and how nice the staff were. You really did make the day so perfect."

Great tasting food

Our chefs have an excellent reputation for creating delicious dishes. Using only the best locally sourced ingredients our chefs have designed a range of wedding breakfast menus to suit all moods and palates.

No wedding breakfast would be complete without a celebratory drink. We have taken as much time choosing wines as we have sourcing all of the ingredients for the menus.

Over the years we have established close relationships with many local wedding specialists from photographers and florists to harpists and live bands. Our Wedding Team will happily help and advise you on all those little extra details to make your day go without a hitch!
